Refer to job class specification for additional details.

About Regional San

Regional San owns and operates the regional wastewater conveyance system and the 1,000 acre Sacramento Regional Wastewater Treatment Plant (SRWTP), near Elk Grove, California. The conveyance system consists of a network of 169 miles of interceptor pipelines and 11 large pump stations that convey wastewater to the SRWTP. The SRWTP is one of the largest wastewater treatment plants on the west coast.

Regional San is undertaking a \$1.5 billion effort called the EchoWater Project to take our region's wastewater treatment to a whole new level. When completed, the EchoWater Project will be capable of meeting our region's needs and protecting our region's waterways for generations to come.

This is an opportunity to be a part of a growing organization, participate in a team atmosphere, and work on a wide variety of mechanical equipment.
