Addendum 1
October 30, 2014

Addendum 1.1

Clarification on budget and term of agreement. The main focus of Regional San for the purposes of this RFP is to provide Phase I services for properties being designated as surplus.

Regional San has included the Phase II services in the RFP to provide flexibility; however, currently does not intend to conduct Phase II services in the near future. Regional San is aware of the scope and cost of Phase II services. If Phase II services are needed beyond the contract amount in this RFP, the contract would be amended to provide enough funds for the work.

Addendum 1.2

Section 5, Subsection C (Consultant Team) states:

Services requested will require that staff overseeing deliverables hold a valid engineering license from the State of California, as issued by the California Board for Professional Engineers and Land Surveyors.

This is now modified to state:

*Services requested will require that staff overseeing deliverables hold a valid engineering **or geologist** license from the State of California, as issued by the California Board for Professional Engineers, Land Surveyors, **and Geologists**.*
