March 23, 2020

Contractors, Material Suppliers and Service Providers,

As you are aware Federal, State, and Local guidelines, directives, and orders for response to COVID-19 are being issued frequently as the situation continues to change. Based on the current Sacramento County COVID-19 Public Health Order issued March 19, 2020—and with consideration of State and Federal COVID-19 guidelines—the Sacramento Regional County Sanitation District (Regional San) consider Contractors, Material Suppliers, and Services Providers who are currently engaged with Regional San as essential to the conveyance and treatment of sanitary sewage.

## Contractors

Contractors currently engaged with Regional San are urged to continue performing construction and maintenance activities while concurrently ensuring the safety and well-being of their staff. However, it is understood that contractors must follow directives from their respective companies.

Any COVID-19 impacts to construction schedules—whether directed by any Government entity or voluntarily undertaken by contractors—will be considered unavoidable delays with non-compensable time extensions granted as appropriate when the full impacts are known. Please refer to your project specifications.

## Material Suppliers and Service Providers

Material Suppliers and Service Providers currently providing services and supplies to Regional San need to continue providing those services and supplies while concurrently ensuring the safety and well-being of their staff. With concurrence from Regional San, Material Suppliers and Service Providers may temporarily suspend or change the provision of supplies and services to deal with the COVID-19 public health emergency.

Regional San is committed to ensuring the public health of our region while simultaneously maintaining the safety and well-being of our employees and contractors.

Sincerely,

Prabhakar Somavarapu  
District Engineer
