Attachment A – Conflict of Interest and Non-Collusion Affidavit

Attachment B – Sample Agreement
1. INTRODUCTION

The Sacramento Regional County Sanitation District (Regional San) is requesting proposals for on-call engineering design and planning support services for odor management projects at both the Sacramento Regional Wastewater Treatment Plant (SRWTP) and Interceptor facilities. The consultants will be selected based on their demonstrated competence and qualifications necessary to perform the work. Cost will not be considered in the initial selection, but will be determined during negotiations with the selected proposal.

The on-call agreement(s) to be awarded will each cover a three-year term, include a cost ceiling of $145,000, and will be implemented on a time-and-materials- basis. Regional San may elect to award one or multiple contracts at their discretion.

This RFP and all attachments are also posted on Regional San’s website (www.regionalsan.com/general-opportunities).

2. BACKGROUND

The Sacramento Regional Wastewater Treatment Plant (SRWTP) provides wastewater treatment to the Sacramento area and surrounding cities, serving approximately 1.3 million customers. The SRWTP is owned and operated by Regional San, a sanitation district organized under the laws of the State of California. The SRWTP currently uses a secondary treatment process consisting of bar screens, aerated grit removal, primary sedimentation tanks, carbonaceous oxidation tanks (CO tanks) using high purity oxygen, secondary sedimentation tanks, disinfection using liquid chlorine, and dechlorination using sodium bisulfite. The treated effluent is discharged into the Sacramento River near the town of Freeport. The treatment process has a permitted average dry weather flow (ADWF) capacity of 181 million gallons per day (mgd).

The SRWTP currently has three main odor removal treatment units onsite to mitigate and reduce offsite odors; the Influent and Effluent Odor Removal Tower (IE ORT), Primary (Pri-ORT), and the Return Activated Sludge Mobile Ventilation Unit (RAS MVU). The IE ORT functions as a full bioscrubber while the Pri-ORT is a chemical stripping tower using 12 mg/l chlorinated effluent. Both ORTs have fixed carbon filter (FCF) units as redundant backup units. The RAS MVU exclusively uses activated carbon media for scrubbing odors from the secondary process.

Regional San has 12 different facilities located throughout the interceptor conveyance system that utilize either portable carbon filter (PCF) units or fixed carbon filter (FCF) units. Roughly 120,000 lbs. of varying types of carbon are actively used for scrubbing foul air at both the plant and within the interceptor system. Regional San also injects chemical into the interceptor system upstream of the plant for odor control. This is performed at 5 different injection sites, using either calcium nitrate under constant feed or sodium hydroxide slug doses.
Regional San routinely implements process control and process optimization projects related to odor treatment and control at both SRWTP and at the interceptor sites. It is anticipated that new treatment technologies will need to be evaluated and existing odor control treatment units will need to be upgraded, modified, and/or rehabbed to maintain reliable odor control for SRWTP and related facilities.

3. **OBJECTIVE**

Regional San has a need for an on-call design and planning support services lending to vital guidance on odor control projects and related efforts at SRWTP and an upstream interceptor conveyance system. These projects may include optimization of existing odor control technologies and design and planning of new odor treatment systems.

10. SELECTION PROCESS

In order to be considered, interested consultants must submit a complete proposal document, with organization and content consistent with Section 7 of this RFP, by the closing date and time required in Section 8 of this RFP. A final recommendation will be made by a Regional San selection panel based on the technical review and evaluation of all proposals. Ranking of the proposals will be based on capability/qualifications criteria. Proposals will be evaluated in three phases as follows:

**Phase 1:** Proposals will be examined as to whether or not the Consultant understood and responded in accordance with the following requirements:

1) Proper completion and submittal of required proposal documents
2) Acceptability of exceptions taken to agreement terms and conditions
3) Related experience requirement met or exceeded

**Phase 2:** Proposals that meet the requirements in Phase 1 will be evaluated and scored using the table in Section 9 of this RFP. The table identifies criteria used in the determination of the final proposal ranking. If any single criterion score fails to be above zero, the proposal will be automatically rejected. Those proposals with a weighted score of less than 60 will be disqualified. Based upon the evaluation of the proposals and reference checks, the most...
responsive proposals may be invited to an interview to further aid the selection process. Regional San may also elect to complete the consultant evaluation and selection without going through the interview process.

**Phase 3:** Cost information for the highest ranked proposal will be requested via email and reviewed, and Regional San staff will enter into negotiations with the selected consultant. If a mutually agreeable contract is unable to be negotiated, Regional San will conclude negotiations with said consultant, and commence negotiations with the consultant with the next highest ranked proposal. This process will continue until an agreement is successfully negotiated or the entire list of eligible consultants is exhausted. Once a mutually agreeable contract is executed, the remaining consultants will be notified of the close of the selection process.

Reminder: The Cost Proposal will be submitted in a separately requested email and is not to be included in the initial proposal. After the qualification rankings have been made, only the Cost Proposal of consultants that Regional San enters into negotiations with will be requested and viewed. Cost Proposals will not be requested for all other consultants.

Regional San reserves the right:

- To reject any or all Proposals, or any part thereof; and
- To select more than one consultant; and
- To waive any informality in the Proposal; and
- To accept the Proposal that is in the best interest of the Regional San.

Regional San’s decision will be final.

**11. AWARD OF CONTRACT**

Award of contract shall be made to the consultant who provides the best value and overall response to the requirements of this RFP. Regional San may select whichever proposal it determines will best serve its interests. The successful consultant will be selected in accordance with the proposal evaluation criteria identified in Section 9 above, and any addenda thereto, except for such immaterial deviation as may be waived by Regional San. Any such waiver shall in no way modify the RFP or excuse the selected Consultant from full compliance with its requirements.

Regional San is prohibited from awarding this contract to any person, entity or business that is on the Federal Exclusion List (https://www.sam.gov/). If you or your firm is on this list, Regional San cannot award this agreement to you and you should not provide a response to this RFP. In addition, consultant certifies that it shall not contract with a subcontractor that is debarred or suspended.
Final selection is expected to be made by July 17, 2020, subject to final approval by the District Engineer. Consultants who submitted proposals will be notified of the outcome of the selection process.

12. ADDITIONAL TERMS AND CONDITIONS

a. Revision of Proposal
Consultants may withdraw or revise a proposal on the consultant’s own initiative at any time before the deadline for submission of proposals. The consultant must submit the revised proposal in the same manner as the original proposal on or before the listed proposal due date and time. In no case will a statement of intent to submit a revised proposal extend the proposal due date for any consultant. At any time during the proposal evaluation process, Regional San may request consultant to provide oral or written clarification of its proposal via an electronic method.

b. Errors and Omissions in Proposal
Failure by Regional San to object to an error, omission, or deviation in the proposal will in no way modify the RFP or excuse the consultant from full compliance with the specifications of the RFP or any Agreement awarded pursuant to the RFP.
