- Applicants must be 18 years of age prior to date of appointment
- High school diploma or the equivalent

Senior Wastewater Treatment Plant Operator

- Possession of a valid Wastewater Treatment Operator Grade II Certificate or higher from the California State Water Resources Control Board; and
- CWEA Level I Maintenance Certificate within four years of appointment.

Wastewater Treatment Plant Operations Supervisor

- Possession of a valid Wastewater Treatment Plant Operator Grade III or higher certificate from the California State Water Resources Control Board; and
- CWEA Level I Maintenance Certificate within three years of appointment to this class.

Shift, Weekend and Holiday Work

The Wastewater Treatment Plant is a 24 hours a day, 365 days a year, operation. All employees in this class will be subject to working shifts, weekends, holidays, overtime and standby.

About Regional San

Regional San owns and operates the regional wastewater conveyance system and the 1,000 acre Sacramento Regional Wastewater Treatment Plant (SRWTP), near Elk Grove, California. The conveyance system consists of a network of 169 miles of interceptor pipelines and 11 large pump stations that convey wastewater to the SRWTP.

Regional San is undertaking a \$1.5 billion effort - called the EchoWater Project - to take our region's wastewater treatment to a whole new level. When completed, the EchoWater Project will be capable of meeting our region's needs and protecting our region's waterways for generations to come.

This is an opportunity to be a part of a growing organization, participate in a team atmosphere, and operate one of the largest wastewater treatment plants on the west coast. To learn more, visit www.RegionalSan.com.
