2. It is further understood and agreed by the parties hereto that Contractor in the performance of its obligation hereunder is subject to the control or direction of District as to the designation of tasks to be performed, the results to be accomplished by the services hereunder agreed to be rendered and performed, and not the means, methods, or sequence used by Contractor for accomplishing the results.

All terms of employment, including hours, wages, working conditions, discipline, hiring, and discharging, or any other terms of employment or requirements of law, shall be determined by Contractor.

INSURANCE REQUIREMENTS FOR CONTRACTORS

Without limiting Contractor's indemnification, Contractor shall procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Agreement by the Contractor, his agents, representatives or employees. District shall retain the right at any time to review the coverage, form, and amount of the insurance required hereby. If in the opinion of the County's Risk Management Office the insurance provisions in these requirements do not provide adequate protection for District and for members of the public, District may require Contractor to obtain insurance sufficient in coverage, form and amount to provide adequate protection. District's requirements shall be reasonable but shall be imposed to assure protection from and against the kind and extent of risks that exist at the time a change in insurance is required.

Verification of Coverage

Contractor shall furnish the District with certificates evidencing coverage required below. **Copies of required endorsements must be attached to provided certificates.** The District may approve self-insurance programs in lieu of required policies of insurance if, in the opinion of the Risk Manager, the interests of the District and the general public are adequately protected. All certificates or evidences of self-insurance are to be received and approved by the District before performance commences. The District reserves the right to require that Contractor provide complete, certified copies of any policy of insurance offered in compliance with these specifications. The contractor's commercial automobile policy must be structured in a way that the personal liability of a contracted employee is covered. It is the responsibility of contractor to notify its insurance advisor or insurance carrier(s) regarding coverage, limits and forms regarding insurance requirements specified herein. Before a non-employee contractor may drive a District vehicle, the District must receive written confirmation from the contractor's insurance advisor or carrier that the contractor's auto liability program covers the personal liability of a contracted employee while driving a District vehicle.
3. **WORKERS' COMPENSATION:** Statutory requirements of the State of California and Employer's Liability Insurance.
