

**RFP #9055: CAPITAL PROGRAM MANAGEMENT SERVICES FOR THE  
SOUTH COUNTY AGRICULTURE AND HABITAT LANDS WATER RECYCLING PROJECT**

**Addendum #2**

**January 6, 2020**

---

The following information resulted from questions received from consultants, including during the one-on-one pre-proposal meetings that occurred the week of December 16, 2019. The questions below, for the most part, have been paraphrased:

Q: Multiple firms requested clarification on the South County Ag (SCA) Program budget.

A: A total estimated cost for implementing all aspects of the Program, including efforts related to ecologic and public benefits, was developed in August 2017 and came to about \$315M. Of that figure, \$217M was estimated for design and construction of the pump station, pipelines, user connections, and other related improvements. The C-PMO will update the information related to the design and construction costs when the Facilities Plan is updated and Basis of Design is established.

Q: Knowing that outreach is within the A-PMO scope, can you give us thoughts on how this will be split/coordinated with C-PMO outreach?

A: C-PMO will take the lead role on outreach related to design and construction of the facilities. A-PMO will likely continue to lead outreach with farmers, environmental groups, and other stakeholders. C-PMO will work with the District's Public Affairs Office (PAO) and A-PMO to develop an overall outreach strategy for the whole program and establish the roles and responsibilities for implementing that strategy. All outreach efforts will be coordinated with and cleared by the PAO.

Q: What is behind the schedule laid out in the RFP (completion in 2023)?

A: The schedule stated in the RFP comes from the approximate schedule that was included in Regional San's WSIP grant application. There is consensus that completion in 2023 is very aggressive and perhaps not feasible. This is a target or goal, not a deadline. We are asking for a realistic schedule with that goal in mind. It's possible that the entire project may not have to be completed to start delivering water. Schedules provided with the proposals should go all the way to close out.

Q: Will C-PMO get involved with end user agreements since they will govern how water is to be delivered?

A: The expectation is yes. A-PMO is working on the agreements now and they are discussing general concepts on water deliveries. C-PMO will need to be included in these discussions as the concepts are refined because they will affect the design of the hard facilities as well as the operational strategies and system controls.

**Addendum #2**

- Q: The RFP suggests that the C-PMO Consultant will need to validate design criteria - who will own system hydraulic modeling?
- A: C-PMO will be responsible for updating the hydraulic model that A-PMO developed during the planning efforts. The District will own the model files. The modeling software used was H2OMAP Water from Innovyze.
- Q: Page 7 of the RFP indicates that the recharge basin, diluent wells, and Stone Lakes National Wildlife Preserve are not to be included in the current project. Is it to be assumed that these facilities would still be added at some point in the future or are they removed entirely and their demand loads can be removed from the system hydraulic model? Can Regional San provide guidance on how far conveyance piping is expected to be extended towards these facilities?
- A: Yes, we assume these elements will be added at some point, so demand assumptions for them will be used for sizing the overall system. The exclusion of these listed items will not materially affect the C-PMO scope relative to laying out the distribution system. The distribution piping as shown in the 2017 Facilities Plan is very preliminary and subject to change. Although certain segments may not be constructed immediately, we still expect to perform the planning and pre-design work related to defining the built-out distribution system to the extent possible, including potential future reaches.
- Q: Is there still a plan for phased construction of the distribution system as described in the 2017 Facilities Plan? Also, will Regional San be responsible for constructing pipelines on private property, or will the property owners? This will affect the extent to which easements will be required.
- A: With the award of the WSIP grant, Regional San now plans to implement everything at once (i.e., no phasing). There has been talk about the water users being responsible for installing improvements on their property, but assume the District will be responsible for all, meaning we would acquire easements for those pipe lengths expected to be on private property. We estimate that roughly 100 parcels will be involved in the easement acquisition effort.
- Q: What are our expectations for survey work?
- A: Topo and property surveys to support alignment selection, establish vertical and horizontal survey controls (monuments, bench marks), prepare plats and legal descriptions (see Property Rights Acquisition Support section in RFP). Design level surveys will be provided by the design consultants. Consultant is welcome to provide other ideas or recommendations with respect to survey work that should be performed by the C-PMO.

---

Q: What are our expectations for geotechnical work?

A: Compile available existing data. Supplement with field investigations at strategic locations that would provide useful information to the design consultants. They will fill in the informational gaps with their own supplemental investigations as they see fit.

Consultant is welcome to provide other ideas or recommendations with respect to geotechnical work that should be performed by the C-PMO.

Q: Have there been any decisions on District staffing?

A: We will have a couple of direct reports under the Program Manager (Mike Crooks) to begin with; expected to be 1 senior engineer and 1 associate engineer. Consultants should expect that District staff will act as Project Managers for projects defined through Basis of Design phase. No actual assignments have been made yet.

Q: Does Regional San have the terms and conditions of the Grant Funding Agreement? Same question for the State Water Board's approval on change the recycled water place of use.

A: [WSIP grant funding agreement](#) – Currently all we have is a template that was provided to us by the State. A copy of the template is attached to this addendum.

[SWRCB Order Approving Petition for Change](#) – This order is available on-line at:

[https://www.waterboards.ca.gov/waterrights/water\\_issues/programs/applications/wastewater\\_petition\\_orders/docs/ww0092order.pdf](https://www.waterboards.ca.gov/waterrights/water_issues/programs/applications/wastewater_petition_orders/docs/ww0092order.pdf)

Q: What elements of EchoWater do you foresee bringing over to C-PMO?

A: Computerized document control system (see PMWeb discussion on Page 8 of RFP) and appropriate workflows, data and document transfer to Regional San repositories, design standards, CAD standards, change management authorities, purchase and contracting guidelines.

Q: Is Maximo being used for linear assets—collection system or just plant?

A: Yes. This information is being migrated over to SASD's Maximo system since they are taking over the M&O of Regional San's interceptor facilities. The same is expected for the South County Ag pipelines that are outside of SRWTP property.

Q: How many growers are currently signed up to receive water?

A: We have only received Letters of Intent (LOIs). The status as of December 5, 2019 is as follows:

- 112 LOI letter packages were mailed out at the end of October. Some packages included LOI forms for multiple parcels, for a total of 197 parcels.
- We have received 25 LOI forms (parcels) from 16 landowners. This represents 13% of the total LOI forms (parcels) sent.
- The total AFY of recycled water demand for Yes and Maybe responses we have received is 8,350 AFY representing approximately 3,595 acres. If all of these landowners sign up at their stated AFY we will have reached 21% of our goal of 39,105 AFY.

6. FUNDING RECIPIENT'S RESPONSIBILITY. Funding Recipient and its representatives shall:
  - A. Faithfully and expeditiously perform or cause to be performed all project work as described in Exhibit A (Work Plan) and in accordance with Exhibit B (Budget) and Exhibit C (Schedule).

- A. Execution of contracts that demonstrate that 100 percent of the Non-Program Cost Share to construct the Project will be paid.
  - B. Execution of public benefits contracts with the administering agencies, as listed in Paragraph 21 (Standard Provisions and Integration) and presented in Exhibits **H through J**.
  - C. Submittal of a Completed Feasibility Study that thoroughly evaluates the Project's feasibility, including, but not limited to, cost effectiveness and technical feasibility.

    - i. Funding Recipient submits to the State all applicable environmental permits,
    - ii. Documents that satisfy the CEQA process are received by the State,
    - iii. State has completed its CEQA compliance review as a Responsible Agency, and
    - iv. Funding Recipient receives written concurrence from the State of Lead Agency's CEQA document(s).
- State's concurrence of Lead Agency's CEQA documents is fully discretionary and shall constitute a condition precedent to any work (i.e., construction or implementation activities) for which it is required. Once CEQA documentation has been completed, State will consider the environmental documents and decide whether to continue to fund the Project or to require changes, alterations or other mitigation. Funding Recipient must also demonstrate that it has complied with all applicable requirements of the National Environmental Policy Act (NEPA) by submitting copies of any environmental documents, including environmental impact statements, Finding of No Significant Impact, mitigation monitoring programs, and environmental permits as may be required prior to beginning construction/implementation.

Funding Recipient shall be responsible for observing and complying with any applicable federal, state, and local laws, rules or regulations affecting any such work, specifically those including, but not limited to, environmental, procurement, and safety laws, rules, regulations, and ordinances. Funding Recipient shall provide copies of permits and approvals to State.
10. RELATIONSHIP OF PARTIES. Funding Recipient is solely responsible for design, construction, and operation and maintenance of projects within the work plan. Review or approval of plans, specifications, bid documents, or other construction documents by State is solely for the purpose of proper administration of

funds by State and shall not be deemed to relieve or restrict responsibilities of Funding Recipient under this Funding Agreement.

11. DISBURSEMENT OF FUNDS. State will disburse to Funding Recipient the amount approved, subject to the availability of funds through normal State processes. Notwithstanding any other provision of this Funding Agreement, no disbursement shall be required at any time or in any manner which is in violation of, or in conflict with, federal or state laws, rules, or regulations, or which may require any rebates to the federal government, or any loss of tax-free status on state bonds, pursuant to any federal statute or regulation. Any and all money disbursed to Funding Recipient under this Funding Agreement shall be deposited in a non-interest bearing account and shall be used solely to pay Eligible Project Costs.
12. ELIGIBLE PROJECT COST. Funding Recipient shall apply State funds received only to eligible Project Costs in accordance with applicable provisions of the law and Exhibit B (Budget). Eligible Project Costs include the reasonable costs of studies, engineering, design, land and easement acquisition, legal fees, preparation of WSIP application and review process documentation and activities, preparation of environmental documentation, environmental mitigations, monitoring, and project construction. Reimbursable administrative expenses are the necessary costs incidental but directly related to the Project included in this Agreement. Work performed on the Project after November 4, 2014, shall be eligible for reimbursement.  
  
Unless stated otherwise, costs that are not eligible for reimbursement with State funds cannot be counted as Non-Program Cost Share. Costs that are not eligible for reimbursement include but are not limited to the following items:
  - A. Costs, other than those noted above, incurred prior to November 4, 2014.
  - B. Operation and maintenance costs, including post construction performance and monitoring costs.
  - C. Land acquired via eminent domain.
  - D. Purchase of equipment not an integral part of a project.
  - E. Establishing a reserve fund.
  - F. Purchase of water supply.
  - G. Monitoring and assessment costs for efforts required after project construction is complete.
  - H. Replacement of existing funding sources for ongoing programs.
  - I. Travel and per diem costs.
  - J. Support of existing agency requirements and mandates (e.g., punitive regulatory agency requirements).
  - K. Purchase of land in excess of the minimum required acreage necessary to operate as an integral part of a project, as set forth and detailed by engineering and feasibility studies.
  - L. Overhead and indirect costs. "Indirect Costs" means those costs that are incurred for a common or joint purpose benefiting more than one cost objective and are not readily assignable to the funded project (i.e., costs that are not directly related to the funded project). Examples of Indirect Costs include, but are not limited to: central service costs; general administration of the Funding Recipient; non-project-specific accounting and personnel services performed within the Funding Recipient's organization; depreciation or use allowances on buildings and equipment; the costs of operating and maintaining non-project-specific facilities; tuition and conference fees; and, generic overhead or markup. This prohibition applies to the Funding Recipient and any subcontract or sub-agreement for work on the Project that will be reimbursed pursuant to this Agreement.
13. METHOD OF PAYMENT. After the disbursement requirements in Paragraph 7 (Basic Conditions) are met, State will disburse the whole or portions of State funding to Funding Recipient, following receipt of a signed invoice for costs incurred, including Non-Program Cost Share, and timely Quarterly Progress Reports as required by Paragraph 16, (Submission of Reports). Payment will be made no more frequently than monthly, in arrears, upon receipt of an invoice bearing the Funding Agreement number. State will notify Funding Recipient, in a timely manner, whenever, upon review of an Invoice, State determines that any portion or portions of the costs claimed are not eligible costs or is not supported by documentation or receipts acceptable to State. Funding Recipient may, within thirty (30) calendar days of the date of receipt of such

notice, submit additional documentation to State to cure such deficiency(ies). If Funding Recipient fails to submit adequate documentation curing the deficiency(ies), State will adjust the pending invoice by the amount of ineligible or unapproved costs.

Invoices submitted by Funding Recipient shall include the following information:

- A. Costs incurred for work performed in implementing the Project during the period identified in the particular invoice.
- B. Costs incurred for any interests in real property (land or easements) that have been necessarily acquired for the Project during the period identified in the particular invoice for the implementation of the Project.
- C. Invoices shall be submitted on forms provided by State and shall meet the following format requirements:
  - i. Invoices must contain the date of the invoice, the time period covered by the invoice, and the total amount due.
  - ii. Invoices must be itemized based on the categories (i.e., tasks) specified in Exhibit B (Budget). The amount claimed for salaries/wages/consultant fees must include a calculation formula (i.e., hours or days worked times the hourly or daily rate = the total amount claimed).
  - iii. One set of sufficient evidence (i.e., receipts, vendor invoices, payroll records) must be provided for all costs included in the invoice.
  - iv. Each invoice shall clearly delineate those costs claimed for reimbursement from the State's funding amount, as depicted in Paragraph 4 (Funding Amount) and those costs that represent Funding Recipient's costs, as applicable, in Paragraph 5 (Non-Program Cost Share).

All invoices submitted shall be accurate and signed under penalty of law. Any and all costs submitted pursuant to this Agreement shall only be for the tasks set forth herein. The Funding Recipient shall not submit any invoice containing costs that are ineligible or have been reimbursed from other funding sources unless required and specifically noted as such (i.e., Non-Program Cost Share). Any eligible costs for which the Funding Recipient is seeking reimbursement shall not be reimbursed from any other source. Double or multiple billing for time, services, or any other eligible cost is illegal and constitutes fraud. Any suspected occurrences of fraud, forgery, embezzlement, theft, or any other misuse of public funds may result in suspension of disbursements of grant funds and/or termination of this Agreement requiring the repayment of all funds disbursed hereunder plus interest. Additionally, the State may request an audit pursuant to Paragraph D.5 (Audits) and refer the matter to the Attorney General's Office or the appropriate district attorney's office for criminal prosecution or the imposition of civil liability. (Civil Code sections 1572-1573; Penal Code sections 470, 489-490.)

14. WITHHOLDING OF DISBURSEMENTS BY STATE. If State determines that the Project is not being implemented in accordance with the provisions of this Funding Agreement, or that Funding Recipient has failed in any other respect to comply with the provisions of this Funding Agreement, and if Funding Recipient does not remedy any such failure to State's satisfaction, State may withhold from Funding Recipient all or any portion of the State funding and take any other action that it deems necessary to protect its interests. Where a portion of the State funding has been disbursed to the Funding Recipient and State notifies Funding Recipient of its decision not to release funds that have been withheld pursuant to Paragraph 15 (Default Provisions), the portion that has been disbursed shall thereafter be repaid immediately with interest at the California general obligation bond interest rate at the time the State notifies the Funding Recipient, as directed by State. State may consider Funding Recipient's refusal to repay the requested disbursed amount a contract breach subject to the default provisions in Paragraph 15 (Default Provisions). If State notifies Funding Recipient of its decision to withhold the entire funding amount from Funding Recipient pursuant to this paragraph, this Funding Agreement shall terminate upon receipt of such notice by Funding Recipient and the State shall no longer be required to provide funds under this Funding Agreement and the Funding Agreement shall no longer be binding on either party.
15. DEFAULT PROVISIONS. Funding Recipient will be in default under this Funding Agreement if any of the following occur:

- A. Substantial breaches of this Funding Agreement, or any supplement or amendment to it, or any other agreement between Funding Recipient and State evidencing or securing Funding Recipient's obligations.
- B. Making any false warranty, representation, or statement with respect to this Funding Agreement or the application filed to obtain this Funding Agreement.
- C. Failure to provide public benefits or approved equivalent public benefits.
- D. Failure to operate or maintain project in accordance with this Funding Agreement.
- E. Failure to make any remittance required by this Funding Agreement.
- F. Failure to submit timely progress reports.
- G. Failure to routinely invoice State.
- H. Failure to meet any of the requirements set forth in Paragraph 8 (Continuing Eligibility).

Should an event of default occur, State shall provide a notice of default to the Funding Recipient and shall give Funding Recipient at least ten (10) calendar days to cure the default from the date the notice is sent via first-class mail to the Funding Recipient. If the Funding Recipient fails to cure the default within the time prescribed by the State, State may do any of the following:

- I. Declare the funding be immediately repaid, with interest, which shall be equal to State of California general obligation bond interest rate in effect at the time of the default.
- J. Terminate any obligation to make future payments to Funding Recipient.
- K. Terminate the Funding Agreement.
- L. Take any other action that it deems necessary to protect its interests.

In the event State finds it necessary to enforce this provision of this Funding Agreement in the manner provided by law, Funding Recipient agrees to pay all costs incurred by State including, but not limited to, reasonable attorneys' fees, legal expenses, and costs.

16. SUBMISSION OF REPORTS. The submittal and approval of all reports is a requirement for the successful completion of this Funding Agreement. Reports shall meet generally accepted professional standards for technical reporting and shall be proofread for content, numerical accuracy, spelling, and grammar prior to submittal to State. All reports shall be submitted to the State's Project Manager. If requested, Funding Recipient shall promptly provide any additional information deemed necessary by State for the approval of reports. Reports shall be presented in the formats described in the applicable portion of Exhibit F (Report Formats and Requirements). The timely submittal of reports is a requirement for initial and continued disbursement of State funds.
- A. Progress Reports: Funding Recipient shall submit Progress Reports to meet the State's requirement for disbursement of funds. Progress Reports shall, in part, provide a brief description of the work performed, Funding Recipients activities, milestones achieved, any accomplishments and any problems encountered in the performance of the work under this Funding Agreement during the reporting period. The first Progress Report shall be submitted to the State no later than **<insert a reasonable date, generally at least 1 quarter after the execution of the agreement>** with future reports then due, at least, on successive three-month increments based on the invoicing schedule and this date.
  - B. **<Note: Include this clause, if construction schedule is > 5 years>** Biennial Costs and Disposition of Funds Report: Funding Recipient shall submit to the State Biennial Costs and Disposition of Funds Reports that summarizes prior invoicing and payment information. The Biennial Costs and Disposition of Funds Report is due every 2 years based on the effective date of this Funding Agreement indicated on page **<number of signature page>** through Project completion, **defined as commencement of project operations <Note: Move to next sub-clause, if this sub-clause is deleted>**.
  - C. Project Completion Report: Funding Recipient shall submit the Project Completion Report within ninety (90) calendar days of Project completion. The Project Completion Report shall include, in part, a description of actual work done, any changes or amendments to the Project, and a final schedule showing actual progress versus planned progress, copies of any final documents or reports generated or utilized during the Project. The Project Completion Report shall also include certification of the final

Project by a registered civil engineer, consistent with Standard Condition D.17 (Final Inspections and Certification of Registered Civil Engineer). A "Certification of Project Completion" form will be provided by the State.

17. OPERATION AND MAINTENANCE OF PROJECT. For the useful life of the Project and in consideration of the funding made by State, Funding Recipient agrees to ensure or cause to be performed the commencement and continued operation of the Project, and shall ensure or cause the Project to be operated in an efficient and economical manner; shall ensure all repairs, renewals, and replacements necessary to the efficient operation of the same are provided; and shall ensure or cause the same to be maintained in as good and efficient condition as upon its construction, ordinary and reasonable wear and depreciation excepted. The State shall not be liable for any cost of such maintenance, management, or operation. Funding Recipient or their successors may, with the written approval of State, transfer this responsibility to use, manage, and maintain the property. For purposes of this Funding Agreement, "useful life" means period during which an asset, property, or activity is expected to be usable for the purpose it was acquired or implemented; "operation costs" include direct costs incurred for material and labor needed for operations, utilities, insurance, and similar expenses, and "maintenance costs" include ordinary repairs and replacements of a recurring nature necessary for capital assets and basic structures and the expenditure of funds necessary to replace or reconstruct capital assets or basic structures. Refusal of Funding Recipient to ensure operation and maintenance of the Project in accordance with this provision may, at the option of State, be considered a breach of this Funding Agreement and may be treated as default under Paragraph 15 (Default Provisions).
18. NOTIFICATION OF STATE. Funding Recipient shall promptly notify State, in writing, of the following items:
- A. Events or proposed changes that could affect the scope, budget, or work performed under this Funding Agreement. Funding Recipient agrees that no substantial change in the scope of the Project will be undertaken until written notice of the proposed change has been provided to State and State has given written approval for such change. Substantial changes generally include changes to the scope of work, schedule or term, and budget.
  - B. Any public or media event publicizing the accomplishments and/or results of this Funding Agreement and provide the opportunity for attendance and participation by State's representatives. Funding Recipient shall make such notification at least 14 calendar days prior to the event.
  - C. Discovery of any potential archaeological or historical resource. Should a potential archaeological or historical resource be discovered while undertaking the tasks set for in Exhibit A (Work Plan), the Funding Recipient agrees that all work in the area of the find will cease until a qualified archaeologist has evaluated the situation and made recommendations regarding preservation of the resource, and the State has determined what actions should be taken to protect and preserve the resource. The Funding Recipient agrees to implement appropriate actions as directed by the State.
  - D. The initiation of any litigation or the threat of litigation against the Funding Recipient regarding the Project or that may affect the Project in any way.
  - E. Final inspection of the completed work on a project by a Registered Civil Engineer, in accordance with Standard Condition D.17 (Final Inspections and Certification of Registered Civil Engineer). Funding Recipient shall notify the State's Project Manager of the inspection date at least 14 calendar days prior to the inspection in order to provide State the opportunity to participate in the inspection.
19. NOTICES. Any notice, demand, request, consent, or approval that either party desires or is required to give to the other party under this Funding Agreement shall be in writing. Notices may be transmitted by any of the following means:
- A. By delivery in person.
  - B. By certified U.S. mail, return receipt requested, postage prepaid.
  - C. By "overnight" delivery service; provided that next-business-day delivery is requested by the sender.
  - D. By electronic means.
  - E. Notices delivered in person will be deemed effective immediately on receipt (or refusal of delivery or receipt). Notices sent by certified mail will be deemed effective given ten (10) calendar days after the date deposited with the U. S. Postal Service. Notices sent by overnight delivery service will be deemed

effective one business day after the date deposited with the delivery service. Notices sent electronically will be effective on the date of transmission, which is documented in writing. Notices shall be sent to the below addresses.

Either party may, by written notice to the other, designate a different address that shall be substituted for the one below.

#### D.1. ACCOUNTING AND DEPOSIT OF FUNDING DISBURSEMENT:

- A. **Separate Accounting of Funding Disbursements:** Funding Recipient shall account for the money disbursed pursuant to this Funding Agreement separately from all other Funding Recipient funds. Funding Recipient shall maintain audit and accounting procedures that are in accordance with generally accepted accounting principles and practices, consistently applied. Funding Recipient shall keep complete and accurate records of all receipts and disbursements on expenditures of such funds.
