

**RFP No. 8401 Janitorial Service for Sacramento Regional County Sanitation District**

**Questions and Answers**

1. Will Regional San provide a golf cart for janitorial service use? If not, could the vendor purchase and store golf cart(s) for use to travel between buildings and transport trash.

As for now Regional San will not supply a cart. If the contractor wants to supply their own cart we will try and find a charging station/area for them which is usually 110v. The contractor will have to provide a statement from their insurance provider that the cart(s) is covered for liability.

2. I don't recall seeing any trash disposal areas, is there only 1 area to remove trash to?

Facilities has approximately 17 General waste and Mixed Recycle bins along with 1 Organic food waste container. Facilities will supply a bin location map for contractor.

3. Is there closet space for the vendor to store auto scrubbing machines to use on resilient flooring throughout the facility?

We have Numerous Janitorial closets for storage, it depends on size and quantity of auto scrubber machines and whether it will fit.

4. Strip & waxing floors is under quarterly and semi-annually, could you clarify.

Stripping & Waxing are completed semi-annually.

Best regards,

Robert J. Salinas  
Contract Services Officer II
